Inventorship

3. See attached decision to the petition under 37 CFR §1.48(b) filed 23 October 2003.

Response to Arguments

4. In view of applicant's amendment filed 23 October 2003, the status of the application is as follows:

Claims Objections

The objections of claims 7-9 are withdrawn in view of Applicant's amendment correcting informalities of claims 7-8 and cancellation of claim 9.

Rejections under 35 U.S.C. §112, second paragraph

The rejection of claims 7-8 has been withdrawn in view of Applicant's amendment to the claims thereby overcoming the indefiniteness rejection.

Allowable Subject Matter

5. The following is a statement of reasons for the indication of allowable subject matter:

6. The closest prior art of record, US 5,247,231 to Glucina, fails to teach each and every limitation of the instant invention. Specifically, Glucina fails to teach or suggest the washing machine or method of braking as claimed further including utilizing an unused component in a washing machine, such as a water pump, to dissipate power during braking, which is disclosed as an essential element of claimed invention, as described in claims 7-8 & 15-16.

7. For at least the foregoing reasons, claims 7-8 and 15-16 (renumbered as claims 1-4) are believed to recite patentable subject matter.

8. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
